

## Tourism & Recreation

The value people have for experiencing and enjoying coastal areas and attractions.

$x_{tr}$  is the status of tourism and recreation goal

$$x_{tr} = \frac{T_r}{T_{90th}}$$

$$T_r = E \times S \times W$$

$E$  is the proportion of employees directly involved in the travel and tourism industry

$S$  is the sustainability( TCI: Crotti & Misrahi, 2015)

$W$  is a penalty based on travel warnings issued by the US State Department
